

## JOHN L. ORROCK

Department of Integrative Biology  
University of Wisconsin  
Madison, WI 53706  
Phone: (540) 809-3815  
e-mail: jorrock@wisc.edu

### PROFESSIONAL EXPERIENCE

---

University of Wisconsin, Madison Department of Integrative Biology	Professor, 2019 – present Associate Professor, 2014 – 2019 Assistant Professor, 2010 – 2014
Center for Ecology and the Environment Nelson Institute for Environmental Studies Crow Institute for the Study of Evolution	Faculty Affiliate, 2010 – present Faculty Affiliate, 2010 – present Faculty Affiliate, 2010 – present
Washington University in Saint Louis Department of Biology Environmental Studies Program	Assistant Professor, 2007 – 2010 Faculty Affiliate, 2007 – 2010
National Center for Ecological Analysis & Synthesis	Postdoctoral Associate, 2004 – 2007

### EDUCATION

---

Iowa State University	Ph.D., Ecology & Evolutionary Biology, 2004
Virginia Commonwealth University	M.S., Biology, 1999
Virginia Commonwealth University	B.S., Biology, 1995

### HONORS AND AWARDS

---

2022-2024	Wayland E. Noland Distinguished Chair in Integrative Biology, UW-Madison
2019-2021	Vilas Faculty Mid-Career Investigator Award, UW-Madison
2016	Storer Award for outstanding invited distinguished speaker, UC-Davis
2013-2014	Vilas Fellowship, UW-Madison
2011	Honored as an outstanding undergraduate mentor, UW-Madison College of Letters and Sciences

- 2009 Outstanding Undergraduate Education award from Washington University  
College of Arts & Sciences
- 2004 Zaffarano Prize, honorable mention for outstanding scholarly publications as a  
graduate student, Iowa State University
- 2004 Elected to Sigma Xi
- 2003 A. Brazier Howell Award from American Society of Mammalogists
- 2001-2004 Environmental Protection Agency Science to Achieve Results (STAR) Fellow

## **RESEARCH SUPPORT**

---

Total: \$7.44 million, \$4.45 million to Orrock Lab

### **Research Grants**

- 2021-2024 National Science Foundation (\$1,046,151)  
“Collaborative Research: Using herbivore kairomones to assess short-term and  
legacy risk responses in the early life stages of long-lived woody plants.” (PIs: E.  
Preisser, C. Orians, and J. Orrock)
- 2021-2025 National Science Foundation (\$1,471,283)  
“IMAGiNE: Linking individual variation in immunity and behavior to landscape  
patterns in disease risk using the National Ecological Observatory Network  
(NEON)” (PIs: J. Orrock and M. Martin)
- 2021-2024 USDA NIFA (\$499,900)  
“Optimizing sustainable management of Midwestern forests by identifying  
context-specific limits to tree and plant recruitment” (PI: J. Orrock, Co-PI: B.  
Connolly)
- 2020-2021 National Science Foundation (\$132,900)  
“Linking population dynamics and behavior to understand how wildfire modifies  
the prevalence of zoonotic disease” (PI: J. Orrock)
- 2017-2019 Strategic Environmental Research and Development Program (SERDP; \$293,904)  
“Using long-term data to optimize recovery of understory plant communities:  
identifying the management contexts and species’ traits that maximize the  
likelihood of persistence and spread of plant populations.” (PIs: J. Orrock, E.  
Damschen, L. Brudvig)
- 2017-2018 UW-Madison Office of the Vice Chancellor for Research and Graduate Education  
(\$43,259)  
“Large-scale field experiments to determine whether plant defenses that increase  
caterpillar cannibalism serve to reduce crop losses in agricultural settings.” (PI: J.  
Orrock)

- 2017-2018 UW Graduate School Fall Research Competition (\$47,043)  
 “Building a foundation for a newly described form of plant defense: How plant induced defenses may alter herbivore abundance and facilitate the spread of herbivore pathogens by encouraging herbivores to become cannibals” (PI: J. Orrock)
- 2014-2018 National Science Foundation (\$83,645)  
 “Do extreme climatic events and predator diversity interact to shape the biogeography of disease?” (PI: J. Orrock)
- 2014-2017 USDA NIFA Fellowship (\$140,118)  
 “Warming winters as the perfect storm: how the interaction between climate change and pathogens may fuel widespread recruitment failure.” (PIs: B. Connolly and J. Orrock)
- 2010-2015 Strategic Environmental Research and Development Program (SERDP; \$1,466,000)  
 “Developing and testing a robust, multi-scale framework for the recovery of longleaf pine communities.” (PIs: J. Orrock, E. Damschen\*; Co-PIs: L. Brudvig, J. Walker)  
 \*Damschen and Orrock contributed equally to proposal, order of lead PI determined by coin toss
- 2011-2015 National Science Foundation (\$650,000)  
 “Collaborative research: Landscape connectivity and the movement ecology of plant and animal communities.” (PIs: J. Tewksbury, N. Haddad, L. Brudvig, D. Levey, T. Carlo, E. Damschen, J. Orrock)
- 2014-2015 UW Graduate School Fall Vilas Associate Fellowship (\$74,448)  
 “Using large-scale experimental landscapes to understand how past activities constrain the future of plant biodiversity.” (PI: J. Orrock)
- 2013-2014 UW Graduate School Fall Research Competition (\$32,077)  
 “Plants perceive more than we realize: uncovering the cues and genes involved in the new discovery that plants perceive the incidental cues of herbivores and prepare for attack.” (PIs: J. Orrock and S. Gilroy)
- 2012-2013 National Science Foundation (\$48,200)  
 “Experimental manipulation of a keystone host to test indirect effects on Lyme disease dynamics.” (PIs: S. Paskewitz, J. Orrock, A. Schotthoefer)
- 2009-2011 U. S. Forest Service (\$299,500)  
 “Integration of savanna restoration processes at various scales to create a comprehensive strategy for landscape restoration.” (PIs: E. Damschen, J. Orrock, L. Brudvig)

- 2008-2010 Strategic Environmental Research and Development Program (SERDP) (\$512,000) “Developing and testing a robust, multi-scale framework for the recovery of longleaf pine communities.” (PIs: J. Orrock, E. Damschen\*; Co-PIs: L. Brudvig, J. Walker)  
\*Damschen and Orrock contributed equally to proposal, order of lead PI determined by coin toss
- 2005-2010 National Science Foundation (\$365,913)  
“The role of apparent competition and patch geometry in mediating the invasion and restoration of grassland communities” (PIs: O. J. Reichman and J. Orrock)
- 2008-2009 I-CARES: International Center for Advanced Renewable Energy and Sustainability (\$35,000)  
“An experimental evaluation of regional variation in the quality and production of sustainable biofuels.” (PI: J. Orrock)
- 2004-2007 National Science Foundation SGER (\$43,571)  
“Does manipulation of top predators lead to rapid shifts in the structure of ecological communities?” (PIs: J. Orrock and O. J. Reichman)

### **Research Training Grants**

- 2019-2020 National Science Foundation (\$7,690)  
Research Experience for Undergraduates Supplement  
“Do corridors modify predator-prey interactions?” (PIs: S. Bartel, J. Orrock, and E. Damschen)
- 2018-2019 National Science Foundation (\$7,995)  
Research Experience for Undergraduates Supplement  
“How does patch geometry affect secondary seed dispersal by small mammals?” (PIs: S. Bartel, J. Orrock, and E. Damschen)
- 2017-2018 National Science Foundation Doctoral Dissertation Improvement Grant (\$19,890)  
“Can predation risk limit small mammal seed predation in novel winter habitats?” (PIs: P. Guiden and J. Orrock)
- 2014-2015 National Science Foundation Doctoral Dissertation Improvement Grant (\$13,000)  
“Disentangling the roles of neighboring plant density and palatability in providing associational defense against herbivory within different habitat types” (PIs: P. Hahn and J. Orrock)
- 2009-2010 National Science Foundation (\$8,775)  
Research Experience for Undergraduates Supplement  
“How connectivity alters seed predation rates in the surrounding landscape matrix” (PIs: L. Brudvig, E. Damschen, J. Orrock, and D. Levey)

- 2008-2009 National Science Foundation (\$5,568)  
Research Experience for Undergraduates Supplement  
“Do invasion-mediated changes in rodent abundance increase the abundance of black-legged ticks?” (PIs: O. J. Reichman and J. Orrock)
- 2007-2008 National Science Foundation (\$5,420)  
Research Experience for Undergraduates Supplement  
“Do exotic plants alter consumer impact by creating a refuge?” (PIs: O. J. Reichman and J. Orrock)
- 2006-2007 National Science Foundation (\$5,250)  
Research Experience for Undergraduates Supplement  
“The impact of gastropod herbivores on the recruitment of native and non-native grasses” (PIs: O. J. Reichman and J. Orrock)

### Grants for Program Development

- 2019-2020 UW Office of the Vice Chancellor for Research and Graduate Education (\$45,000)  
“Creation of a Center for Ecology and the Environment at UW-Madison” (PIs: J. Pauli and J. Orrock)

### PUBLICATIONS

### **TEACHING**

---

**University of Wisconsin, Madison** (2010 – present)

*Undergraduate:* Behavioral Ecology (Zoo 425)

Spring 2012 (79 students)

Spring 2013 (79 students)

Spring 2014 (90 students)

Spring 2015 (101 students)

Spring 2016 (188 students)  
Spring 2018 (103 students)  
Spring 2020 (54 students)  
Spring 2022 (48 students)

*Undergraduate:* Introductory Biology (Zoo/Bio 101), Section on Evolution and Ecology  
Fall 2010 (865 students)  
Fall 2011 (800 students)  
Fall 2013 (728 students)  
Fall 2014 (675 students)  
Fall 2015 (659 students)  
Fall 2017 (859 students)  
Fall 2018 (806 students)  
Fall 2019 (764 students)  
Spring 2020 (643 students)  
Fall 2021 (768 students)  
Fall 2022 (764 students)

*Undergraduate:* Independent study (Bio 199, 299, 699)  
Every semester from 2010-present (29 undergraduates)

*Graduate:* The Ecology of Habitat Structure (Zoo 956)  
Fall 2012 (13 students)

*Graduate:* Novel Ecosystems and the Ecology of Fear (Zoo 956)  
Fall 2017 (10 students)

*Guest lectures:* Animal Behavior, General Ecology, Basic and Applied Insect Ecology, Ecology of Infectious Disease, Exploring Biology, First-generation STEM seminar, Introduction to Wisconsin Ecology; Professional Development in Ecology

**Virginia Commonwealth University** (Sabbatical from Fall 2016-Spring 2017)

*Graduate:* Predator-prey Interactions and the Ecology of Fear (Bio 693)

**Washington University** (2007-2010)

*Undergraduate:* Behavioral Ecology (Bio/Enst 372)  
Spring 2008, 2009, 2010 (100-140 students)  
• Received Arts & Sciences Faculty Award for Outstanding Undergraduate Education, 2009

*Undergraduate:* Independent Study (Bio 200 and Bio 500)

*Graduate:* Spatial Dynamics in Ecology and Evolution (Bio 580)

## TRAINING AND MENTORING

---

### Graduate Students Trained (co-author on manuscript):

#### Current:

Carson Keller Ph.D., Zoology 2019-  
American Society of Mammalogists Guy Cameron Research  
Award  
UW-Madison Arboretum Fellowship

Mark Fuka Ph.D., Zoology 2020-  
William C. Burns and Lemuel A. Fraser Teaching Enrichment  
Scholarship

Elizabeth Locke M.S., Integrative Biology 2022-

#### Completed:

Caleb Hickman Ph.D., Zoology, 2008-2013  
Current position: wildlife biologist in North Carolina

Phil Hahn Ph.D., Zoology, 2010-2015  
NSF Doctoral Dissertation Improvement Grant  
Current position: Assistant Professor at University of Florida

Matt Schuler Ph.D., Biology, Washington University (Matt stayed at  
Washington University to finish Ph.D. after Orrock lab moved to  
UW-Madison)  
EPA STAR Fellowship Recipient (Spring 2010)  
Current position: Assistant Professor at Montclair University

John Stuhler M.S., Zoology, 2012-2015  
Current position: Ph.D. student at Texas Tech University

Kristina Bartowitz M.S., Nelson Institute, 2014-2015  
Current position: Ph.D. student at Idaho State University

Jen Chandler M.S., Zoology, 2014-2017  
American Society of Mammalogists Grants-in-Aid-of-Research  
George Melendez Wright Young Leaders in Climate Change  
fellowship from National Park Service  
Current position: Research technician at University of  
Massachusetts, Amherst

Pete Guiden Ph.D., Zoology 2014-2019  
NSF Doctoral Dissertation Improvement Grant  
American Society of Mammalogists Grant-in-Aid-of-Research  
Current position: Assistant Professor at Hamilton College

Savannah Bartel Ph.D., Zoology, 2017- 2022  
American Society of Mammalogists Shadle Fellowship  
American Society of Mammalogists Grant-in-Aid-of-Research  
Current position: Postdoc, Washington State University

## Graduate Thesis Committees (14 current, 31 completed)

**Current:** Angelica Bautista (Advisor: Damschen), Pairsa Belmaric (Advisor: Pauli), Jamie Botsch (Advisor: Ives), Katherine Charton (Advisor: Damschen), Mauriel Curras (Advisor: Pauli), Michelle Homann (Advisor: Damschen), Samuel Jolly (Advisor: Pauli), Bijit Khadka (Advisor: Pauli), Jacob Kraus (Advisor: Strier), Corbin Kuntze (Advisor: Pauli), Stephanie MacFarlane (Advisor: Damschen), Grace Melone (Advisor: Crall), Shotaro Shiratsuru (Advisor: Pauli), Jered Stratton (Advisor: Payseur).

**Completed:** Brian Allan (Advisor: Chase), Ilianna Anise (Advisor: Strier), Peggy Boone (Advisor: Strier), Michael Bosch (Advisor: Ives), Lauren Brooks (Advisor: Payseur), Amber Burgett (Advisor: Chase), Amy Conley (Advisor: Templeton), Olivia Cope (Advisor: Lindroth), Kara Cromwell (Advisor: Peckarsky), Landon Falke (Advisor: Preston), Meghan Fitzgerald (Advisor: Ives), Cat Frock (Advisor: Turner), Jen Grauer (Advisor: Pauli), Nick Griffin (Advisors: Templeton and Knight), Jeremy Hemberger (Advisor: Gratton), Jon Henn (Advisor: Damschen), Michele Johnson (Advisors: Losos and Templeton), Nic Kooyers (Advisor: Olsen), Xia Lee (Advisor: Paskewitz), Nichole Miller (Advisor: Hoch), Lucas Nell (Advisor: Ives), Jennifer Neuwald (Advisor: Templeton), Michelle Parmenter (Advisor: Payseur), Paula Perrig (Advisor: Pauli), Jesse Pfammatter (Advisor: Raffa), John Pokallus (Advisor: Pauli), Wade Ryberg (Advisor: Chase), Melissa Simon (Advisor: Damschen), Quinn Sorenson (Advisor: Damschen), Jake Walsh (Advisor: Vander Zanden), Camille Warbington (Advisor: Van Deelen).

### External Thesis Committees:

Taylor Ellis, Sonoma State University (Advisor: J. Hall Cushman); graduated May 2015

### External Thesis Examinations:

Miguel Perez, “Foraging responses of swamp wallabies (*Wallabia bicolor*) to plant chemistry, vegetation composition, and diversity.” Advisors: C. MacArthur and P. Banks, University of Sydney; graduated 2014

### Postdoctoral Fellows (10 total; co-author on manuscript):

Alli Brehm (2022-present)

Chad Zirbel (2021-present)

Jen Cruz (2018-2020); currently an Assistant Professor at Boise State University

Angie Larsen (2018); currently a Wildlife Ecologist at NCASI, Virginia Tech

Brian Connolly (2014-2017); currently Lab Coordinator at Gonzaga University

Joseph Veldman (2010-2014); currently an Assistant Professor at Texas A&M University

Susan Carr (2010-2011); currently an Information Specialist for USDA ARS

Chris Habeck (2010-2012); currently an Associate Professor at Kutztown University

Brett Mattingly (2009-2012); currently an Associate Professor at Eastern Connecticut University

Cathy Collins (2009-2010); currently an Associate Professor at Bard College

Cory Christopher (2008-2010); currently Director of Conservation at Cincinnati Nature Center

James Watling (2008-2010); currently an Associate Professor at John Carroll University

**Postgraduate M.S. Research Technicians** (6 total; co-author on manuscript):

Jennifer Chandler, Jessica Hoisington-López, Stephanie Koontz, Joe Ledvina, Danielle Racke, Nick Reif

**Postgraduate B.S. Research Technicians** (16 total, 11 from underrepresented groups)

Lauren Bizzari, Chelsea Blake, Bonnie Cooper, Diana Guzmán, Jordan Kremer, Anthony Lucia, Emily Meineke, Nicholas Mills, John Mordasky, Marilena Nuñez, Amanda Powell, Rick Ranalli, Theresa Rusca, Kira Santulli, Sarah Smiley, Julia Sosin

**Undergraduate Students** (71 total, 48 from underrepresented groups; co-author on manuscript;

<sup>P</sup>presented poster at scientific meeting; \*funded by NSF REU supplement):

Lauren Agnew<sup>P</sup>, Brady Andersen, Lauren Arrett<sup>P</sup>, Kirk Barnett\*, Savannah Bartel<sup>P</sup>, Emily Becker, Nichole Boyea<sup>P</sup>, Emma Callan, John Brennan, Molly Burns\*, Bliss Capener<sup>P</sup>, Jessica Casper, Julie Cotton, Michael Craig\*, Tess Croner\*, Greg Curler\*, Max Czerwonka, Katie DeYoung, Roberta Donaldson<sup>P</sup>, Anide Duval, Raina Eddy<sup>P</sup>, Deborah Farley, Morgan Fenrich, Julia Frangul, Kate Goodwin, Sarah Gorsline, Ben Gottsacker<sup>P</sup>, Ali Gregorian, Maia Gumnit<sup>P</sup>, Leotie Hakkila\*, Josephine Hall, Emily Hills, Lily Huffman, Alex Johnson<sup>P</sup>, Gavin Jones, Collin Kirk<sup>P</sup>, A. J. Kitchen<sup>P</sup>, Madeline Kubica, Emily Lannoye, Lauren Lansing, Eric Lee, Eliza Lindley, Melissa Lyman<sup>P</sup>, Luke Maillefer<sup>P</sup>, Carsyn Maier, Melissa Martin, Kaitlin Mattos<sup>P</sup>, Jing Mei, Jake Merten<sup>P</sup>, Abby Mitchell, Sara Motheral\*<sup>P</sup>, Cole Nichols, Suncana Pavlik\*, Ben Rakov, Mark Rowe, Brian Schuh, John Stuhler, Isabell Teng, Natasha Thompson, Kylie Vanchena, Amy VanLishout<sup>P</sup>, Brianna Van Matre, Kai Wang, Marina Waggoner, Elicia Walker, Kai Wang, Alicia Ward, Julia Warren, Amelia Weidemann<sup>P</sup>, Joseph Willman, Whitney Wood, Melissa Yu, Gabriela Zaldumbide<sup>P</sup>, Adeline Zamora<sup>P</sup>

---

**ACADEMIC AND PROFESSIONAL ACTIVITIES**

**Service**

**University of Wisconsin:**

**Department of Integrative Biology:**

Curriculum Committee Chair (Fall 2021-present). Provide oversight on curriculum development, planning and implementation of new courses, and allocation of faculty effort to teaching.

Biology Building Design Committee (Fall 2021-present). This ad hoc committee participates in planning meetings with L&S and campus partners to discuss plans for an upcoming construction of a Biology Building.

Task Force on Affiliate Faculty (Spring 2018-present). This task force reviews and discusses roles and obligations of zero-time affiliate faculty in the Department of Integrative Biology, and drafts an updated policy for zero-time faculty.

Revision of Integrative Biology tenure guidelines (Spring 2019-Spring 2021). I revised the mentoring and tenure guidelines for the department to be

consistent with recommendations from the Biological Sciences Divisional Committee; these guidelines were selected by the Biological Sciences Divisional Committee to be posted as an example for other departments.

Graduate Program Executive Committee (Fall 2017-Fall 2020). This committee works to set future goals for the graduate program, to facilitate progress of current graduate students, and to help address questions or issues that may arise.

Director of Graduate Admissions (Fall 2017-Fall 2020). I oversaw admission into the graduate program, prepared reports that summarize student and program performance, helped promote initiatives to maximize diversity and inclusion in graduate recruitment, and secured funding to support graduate fellowships and recruiting activities.

Preparation and review of faculty performance and promotion documents. (Fall 2018-present). I work with other faculty in our department to provide reviews of faculty performance, including pre- and post-tenure reviews. Because of my service on the Biological Sciences Divisional Committee, I am also able to provide review and assistance for Integrative Biology faculty who are preparing their tenure and promotion documents.

Faculty mentoring committees. Provide input on early-career faculty progress and facilitate career development.

Robert Johnson, Department of Integrative Biology (Fall 2021-present)

Aaron Ragsdale, Department of Integrative Biology (Fall 2021-present)

Interim Director of Zoology Graduate Program (Fall 2018-2019). I oversaw the graduate program and worked to ensure its success in all capacities (e.g., by helping resolve student and faculty issues and concerns).

Instruction and Programs Committee (Fall 2014-Fall 2017). This committee oversees the planning, staffing, and implementation of all courses offered through the Department of Integrative Biology.

Faculty Search Committee (Fall 2013). This committee conducted a successful search for a tenure-track evolutionary biologist.

### **College of Letters and Sciences:**

Biological Sciences Divisional Committee (Fall 2017-Spring 2020). This is the executive committee of the Faculty Division of Biological Sciences. It reviews tenure and promotion cases for the biological sciences across the UW campus and makes recommendations to deans and directors. It also advises deans and directors about recommendations to use honorific modified professorial titles, names Hilldale Award recipients and Hilldale Lecture Series speakers, and makes appointments to standing and ad hoc committees.

Biological Sciences Fellowship Committee (Spring 2014-2016). This committee reviews funding requests from graduate programs across the biological sciences. The committee allocates approximately 2 million in funding annually, and also makes recommendations regarding campus-wide faculty awards.

### **Campus-wide:**

UW Arboretum Fellowship Review Committee (Spring 2022 – present). I participate in review of graduate fellowship applications submitted to the UW Arboretum.

Chair, Wisconsin Ecology (Fall 2018 – Fall 2020). I provided oversight and leadership for Wisconsin Ecology, a cross-campus group of 71 faculty and 49 graduate students who interact to foster ecological research on campus. This includes obtaining funding to support two campus-wide symposia, strategic planning to articulate future visions for Wisconsin Ecology, and continued implementation of current initiatives. In addition to those initiatives, I also worked with campus leadership to establish a consistent funding stream to support Wisconsin Ecology and also spearheaded a successful effort to create the Center for Ecology and the Environment at UW-Madison.

Wisconsin Ecology Executive Committee (Fall 2015 – Fall 2020). This committee works to implement all current initiatives of Wisconsin Ecology.

Wisconsin Ecology Academic Programs and Curricula Chair (Fall 2015-Fall 2016). In this position, I explored options for creating an undergraduate major for Wisconsin Ecology as well as a graduate major.

Research Animal Resources Center (RARC) informal review. (Fall 2014). I provided constructive feedback to assist the development of a wildlife module for the UW RARC.

Review of faculty promotion documents. (Fall 2021-present). Provide review of promotion-related materials for ecologists in other departments at UW-Madison.

Peer review of faculty teaching. (Fall 2014). Provided peer review of Invasive Species course (LA 375) for Landscape Architecture

Faculty mentoring committees. Provide input on early-career faculty progress and facilitate career development.

Dan Preston, Department of Forest and Wildlife Ecology (2019-2020)

James Crall, Entomology Department (2021-present).

### **Washington University:**

Environmental Studies Review Committee — 2007-2010

Ecology, Evolution, and Population Biology Steering Committee — 2007-2010

Graduate Qualifying Exam Committee — 2008

Moog Scholarship Committee, College of Arts and Sciences — 2008

Biomathematics in Biology Committee — 2008-2009

### **Service to professional societies and organizations:**

Associate editor: *Ecology* — 2018-2021

Manuscript review: I review an average of 8-14 manuscripts a year. These reviews are for a variety of journals, including *American Naturalist*, *Ecology*, *Ecology Letters*, *Journal of Animal Ecology*, *PNAS*, *Proceedings of the Royal Society*, *Trends in Ecology and Evolution*.

Invited participant in planning symposium at National Center for Ecological Analysis and Synthesis; 2012

Grants-in-Aid Committee, American Society of Mammalogists. — 2005-2009

Panel Member, Perspectives on a Successful Career in Ecology, Ecological Society of America — 2008-2010

**Grant proposal review:**

**University of Wisconsin grant proposal review:** Hatch/McIntire-Stennis Fund (College of Agriculture and Life Sciences)

**Washington University grant proposal review:** International Center for Advanced Renewable Energy and Sustainability (I-CARES), HHMI Summer Undergraduate Research Fellowship (SURF), SURF Travel Award Review Committee

**Extramural grant proposal review:** I have reviewed proposals from the National Science Foundation (USA), Natural Sciences and Engineering Research Council (Canada), American Society of Mammalogists Grant-in-Aid of Research

**Panel Member:**

National Science Foundation DEB grant review — 2010, 2015, 2020, 2022  
USDA NIFA Sustainability program grant review — 2022

**Program review:**

**National Park Service:** Invited peer review of Natural Resource Condition Assessment for Channel Islands National Park — 2016

**National Ecological Observatory Network:** Provided in-depth review of small-mammal sampling protocol for National Ecological Observatory Network (NEON) — 2015

**Invited departmental seminars (since 2007):**

2022	University of Minnesota, Duluth
2021	University of Minnesota, Twin Cities, EEB Department
2019	Texas Tech University Michigan State University
2018	Pennsylvania State University Virginia Commonwealth University University of Wisconsin, Madison, qBio seminar series
2017	Fordham University University of Wisconsin, Madison, Entomology Department
2016	Virginia Commonwealth University
2015	University of California, Davis University of Illinois, Urbana-Champaign
2014	Northern Illinois University
2013	Southeastern Wisconsin Invasive Species Colloquium University of Wisconsin, Whitewater, Biology Department

- University of Wisconsin, Madison, Forest and Wildlife Ecology Department  
 University of Wisconsin, Madison, Biology Colloquium  
 University of Wisconsin, Madison, Entomology Department
- 2012 University of Guelph  
 Washington State University  
 Iowa State University (two presentations)
- 2011 Michigan State University (two presentations)  
 University of Southern Florida  
 University of Indiana
- 2010 Illinois State University  
 University of Wisconsin, Madison (two presentations)  
 University of British Columbia
- 2009 University of South Carolina  
 Ohio State University  
 University of California, Santa Cruz  
 University of Michigan  
 California State University, Northridge  
 University of Missouri, Columbia (invited by UM graduate student conservation group)  
 University of Florida
- 2008 Oklahoma State University  
 Virginia Commonwealth University  
 Southern Illinois University, Carbondale  
 University of Nevada, Reno
- 2007 University of Missouri, St. Louis  
 Indiana State University  
 University of Rhode Island  
 Texas Tech University

**Invited presentations at scientific meetings (first-authored only):**

- 2021 **Orrock, J. L.**, E. Damschen, J. Cruz, L. Brudvig, W. Mattingly, J. Veldman, A. Larsen-Gray, P. Hahn. Using long-term experiments to identify functional traits and environmental conditions that maximize restoration potential. The Past as a Lens for Biodiversity Conservation on a Dynamically Changing Planet, Virtual Symposium
- 2018 **Orrock, J. L.**, J. Munshi-South, L. Aubeg. Predator-mediated evolution of prey behavior: using population genetics to quantify evolutionary change. Gordon Research Conference on Predator-Prey Interactions, Ventura, CA.
- Orrock, J. L.** and P. W. Guiden. Invasive plants alter foraging and space use by animals. Organized Symposium on Behavioral Landscape Ecology, International Association of Landscape Ecologists Meeting, Chicago, IL.
- Orrock, J. L.** Long-term studies of Sin Nombre virus in island mice. Third

annual Wisconsin Wildlife Health Symposium, sponsored by Wisconsin Student Chapter of the Wildlife Disease Association, Madison, WI.

- 2017 **Orrock, J. L.** and L. A. Brudvig. Past land use affects restoration of consumers and consumer effects on plants. Organized Symposium on Restoration of Consumers to Ecological Communities, Ecological Society of America Meeting, Portland, OR.
- 2016 **Orrock, J. L.** The ecological and evolutionary implications of fear. Wisconsin Festival of Ideas, Madison, WI.
- Orrock, J. L.** How climate and predators shape large-scale patterns of Sin Nombre virus in wild mice. Second annual Wisconsin Wildlife Health Symposium, sponsored by Wisconsin Student Chapter of the Wildlife Disease Association, Madison, WI.
- 2015 **Orrock, J. L.** and A. Alstad. Connections among ticks and invasive plants: how changes in habitat structure might change human disease risk. Prairie Enthusiasts Annual Meeting, Stephen's Point, WI.
- 2014 **Orrock, J. L.** Invasive plants generate changes in animal behavior, communities, and disease risk. Keynote speaker at Southeastern Wisconsin Invasive Plants (SEWISC) meeting, Milwaukee, WI.
- 2013 **Orrock, J. L.** Shifting Interactions in a Changing World: Human Altered Plantscapes, Invited session leader, Gordon Research Conference on Plant-Herbivore Interactions, Ventura, CA
- Orrock, J. L.** and R. J. Fletcher. An island-wide predator manipulation reveals immediate and long-lasting matching of risk by prey. Symposium on invasive plants and wildlife. Wildlife Society of America, Milwaukee, WI.
- Orrock, J. L.,** C. Hickman, J. Watling, H. Dutra, and B. Allan. Invasive plants generate changes in animal behavior, animal communities, and human disease risk by altering habitat structure and composition. Symposium on fear in wildlife populations. Wildlife Society of America, Milwaukee, WI.

**Contributed presentations at scientific meetings:** (Since 2008; 80 total)

- 2022 Bartel, S.L. and **J. L. Orrock.** Cascading effects of eavesdropping: predator sociality mediates foraging behavior and multiple plant-consumer interactions. American Society of Mammalogists, Tucson, AZ.
- Keller, C.B. and **J. L. Orrock.** Size- and state-dependent effects of invasive

plants on antipredator behavior of white-footed mice (*Peromyscus leucopus*). American Society of Mammalogists, Tucson, AZ.

Keller, C. B. and **J. L. Orrock**. Invasive shrubs increase rodent foraging on exotic animals and native understory plants. Upper Midwest Invasive Species Conference, Green Bay, WI.

Fuka, M. E. and **J. L. Orrock**. Stem density of invasive shrubs facilitate increased winter seed removal by small mammals. American Society of Mammalogists, Tucson, AZ.

Fuka, M. E. and **J. L. Orrock**. Stem density of invasive shrubs facilitate increased winter seed removal by small mammals. Upper Midwest Invasive Species Conference, Green Bay, WI.

2021 Bartel, S.L. and **J. L. Orrock**. Past and present disturbance affect deer antipredator behavior. American Society of Mammalogists, Virtual Conference.

Keller, C.B. and **J. L. Orrock**. Invasive shrubs generate rodent biotic resistance to invasive earthworms. American Society of Mammalogists, Virtual Conference.

2019 Damschen, E.I., **J. L. Orrock**, L. A. Brudvig, J. Cruz, and W. B. Mattingly. How management and climate affect long-term recovery and spread of longleaf pine understory plants. SERDP Annual Meeting, Washington, D.C.

Guiden, P. W. and **J. L. Orrock**. Landscapes of fear in novel winters: woody debris addition increases small-mammal winter seed predation in habitats with snow removed. Ecological Society of America, Louisville, KY.

Bartel, S. L. and **J. L. Orrock**. Mesopredator omnivory generates both direct and indirect effects on seed fate. American Society of Mammalogists, Washington, DC.

2018 **Orrock, J. L.**, E. I. Damschen, A. Larsen, L. Brudvig, and W. B. Mattingly. The value of seed additions for longleaf pine groundcover restoration. Longleaf Alliance Annual Meeting, Alexandria, LA.

Guiden, P. W. and **J. L. Orrock**. An invasive shrub alters the timing and magnitude of native rodent activity in spring and autumn. Ecological Society of America, New Orleans, LA.

Bartel, S. L. and **J. L. Orrock**. Land-use history and canopy thinning alters seed predation and secondary dispersal by small mammals. American Society of Mammalogists, Manhattan, KS.

Larsen, A. L., **J. L. Orrock**, E. I. Damschen, and L. A. Brudvig. Seed dispersal drives large-scale legacies of past land use on contemporary plant communities. Ecological Society of America, New Orleans, LA.

Damschen, E. I., L. A. Brudvig, M. A. Burt, **J. L. Orrock**, N. M. Haddad, D. J. Levey, and J. Resasco. So close and yet so far: Overcoming hurdles for publishing long-term and large-scale data. Ecological Society of America, New Orleans, LA.

Brudvig, L., N. Turley, S. Breland, J. Gibbs, P. Hahn, R. Isaacs, J. Ledvina, **J. L. Orrock**, and J. Stuhler. An ecosystem-wide evaluation of how agricultural legacies and restoration affect longleaf pine savannas. Ecological Society of America, New Orleans, LA.

Schwemm, C. A., C. Drost, **J. L. Orrock**, T. Stanley, and T. Coonan. Comparing indices and advanced models for detecting population trends from mark-recapture data for island deer mice (*Peromyscus maniculatus*) over two decades. Wildlife Society of America, Santa Rosa, CA.

2017 Guiden, P. W., B. M. Connolly, and **J. L. Orrock**. Interspecific variation in the effects of novel cold stress on tree seedling survival and growth. Ecological Society of America, Portland, OR

Guiden, P.W. and **J. L. Orrock**. Invasive buckthorn degrades a classic animal-habitat relationship. American Society of Mammalogists, Moscow ID.

Hahn, P. G. and **J. L. Orrock**. Agricultural legacies affect insect communities and herbivory decades after abandonment and implementation of restoration. Ecological Society of America, Portland, OR

2016 **Orrock, J. L.**, B. Connolly, and M. Sheriff. Predator diversity predicts large-scale patterns of stress in prey. Gordon Research Conference on Predator-Prey Interactions, Ventura, CA.

**Orrock, J. L.**, B. Connolly, and M. Sheriff. Different predator communities drive large-scale patterns in rodent stress. Third Symposium of the California Channel Islands, Ventura, CA.

Capener, B. and **J. L. Orrock**. The effect of germination timing and competition on the success of *Brassica nigra* seedlings. University of Wisconsin-Madison Undergraduate Research Symposium, Madison, WI.

Preisser, E. P. and **J. L. Orrock**. The allometrics of fear: Interspecific relationships between body size and response to predation. Ecological Society of America, Portland, OR.

2011 **Orrock, J. L.**, E. L. Preisser, J. H. Grabowski, and G. C. Trussell. The hidden cost of safety: Prey refugia increase the negative effect of predation risk in aquatic systems. Ecological Society of America, Austin, TX.

Habeck, C. W., J. Ledvina, L. A. Brudvig, and **J. L. Orrock**. Controls over understory species richness within degraded remnants of longleaf pine woodland. Ecological Society of America, Austin, TX.

Hickman, C. R., **J. L. Orrock**, and J. I. Watling. 2011. The effects of an invasive shrub on responses to heterospecifics in amphibians. Animal Behavior Society, Bloomington, IN.

Brudvig, L. A., W. B. Mattingly, **J. L. Orrock**, E. I. Damschen, J. W. Veldman, and J. L. Walker. Land use history alters soil compaction and affects the plant community: implications for diversity in longleaf pine ecosystems. Strategic Environmental Research and Development Program, Washington DC.

Hahn, P. G. and **J. L. Orrock**. Anthropogenic legacies mediate contemporary plant-herbivore interactions. Ecological Society of America, Austin, TX.

Gorsline, S., P. Hahn, and **J. L. Orrock**. Agricultural land use history alters grasshopper diversity and abundance in longleaf pine savannas. University of Wisconsin-Madison Undergraduate Research Symposium, Madison, WI.

Thompson, N. and **J. L. Orrock**. Bottom-up effects of nitrogen on biomass in a longleaf pine savanna of South Carolina. University of Wisconsin-Madison Undergraduate Research Symposium, Madison, WI.

2010 Melnechuk, M. E., C. C. Christopher, L. A. Brudvig, C. D. Collins, E. I.

Damschen, W. B. Mattingly, **J. L. Orrock**, and J. L. Walker. Changes in reference sites over time and implications for restoration. Ecological Society of America , Pittsburgh, PA.

Mattingly ,W. B., C. D. Collins, L. A. Brudvig, C. C. Christopher, E. I. Damschen, **J. L. Orrock**, and J. L. Walker. Geographic variation in patterns of alpha and beta diversity along a degradation gradient in longleaf pine savannas. Ecological Society of America, Pittsburgh, PA.

Brudvig, L. A., **J. L. Orrock**, E. I. Damschen, J. Walker, W. B. Mattingly, C. Collins, and M. Melnechuk. A classification framework for assessing degradation and recovery potential of understory plant communities in longleaf pine forests on DOD/DOE lands. Strategic Environmental Research and Development Program annual, Washington DC.

Boyea, N., P. Hahn, and **J. L. Orrock**. Plant diversity, not community palatability, alters herbivore foraging patterns and reduces consumption rates. University of Wisconsin-Madison Undergraduate Research Symposium, Madison, WI.

2009 **Orrock, J. L.**, and M. W. Witter. Multiple drivers of apparent competition reduce re-establishment of a native plant in invaded habitats. Ecological Society of America, Albuquerque, NM.

Hickman, C. R., **J. L. Orrock**, and J. I. Watling. An invasive shrub causes changes survival and response to predators by a larval amphibian. Ecological Society of America, Albuquerque, NM

Hinkelman, T. M., **J. L. Orrock**, and S. C. Loeb. Logs as protective cover for foraging rodents. Midwest Ecology and Evolution Conference, Lincoln, NE

Resasco, J., N. M. Haddad, and **J. L. Orrock**. Distribution of fire ants and harvester ants in experimental landscapes. Southeastern Ecology and Evolution Conference, Gainesville, FL.

Dutra, H. P., K. Barnett, R. Marquis, J. Reinhardt, and **J. L. Orrock**. Apparent competition with an invasive plant: Amur honeysuckle (*Lonicera maackii*) reduces native seedling establishment by providing refuge for native rodents. Ecological Society of America, Albuquerque, NM.

Craig, M., L. Brudvig, and **J.L. Orrock, J. L.** Spatial and temporal variation of seed predation in the matrix of a corridor system. Undergraduate Research Symposium, Washington University, St. Louis, MO.

2008 **Orrock, J. L.** Anti-predator behavior and the reintroduction of a top predator. California Channel Islands Symposium, Ventura, CA.

**Orrock, John.** Local community size and the role of stochastic versus deterministic determination of competition in metacommunities. Ecological Society of America, Milwaukee, WI.

Haddad, N. M., B. Hudgens, E. I. Damschen, D. J. Levey, **J. L. Orrock**, J. J. Tewksbury, A. Weldon. Putting in perspective the positive and negative effects of corridors. International Association of Landscape Ecologists, Madison, WI

Fletcher, R. J., **J. L. Orrock**, and B. Robertson. Toward a unified framework for interpreting the consequences of ecological and evolutionary traps. International Association of Landscape Ecologists, Madison, WI.

Nogeire, T. F. W. Davis, and **J. L. Orrock.** Carnivores in the farmland matrix: Use of avocado orchards depends on neighboring land use types. International Association of Landscape Ecologists, Madison, WI.

Nogeire, T., F. W. Davis, and **J. L. Orrock.** Carnivores in the farmland matrix: Use of avocado orchards depends on neighboring land use types. Society for Conservation Biology, Chattanooga, TN.

Allan, B. F., H. P. Dutra, L. S. Goessling, K. Barnett, J. M. Chase, R. J. Marquis, G. A. Storch, R. E. Thach, **J. L. Orrock.** Invasive honeysuckle (*Lonicera maackii*) increases tick-borne disease risk. Ecological Society of America, Milwaukee, WI.

Mattos, K. J. and **J.L. Orrock, J. L.** Exploring indirect effects of biological invasions on native communities. Undergraduate Research Symposium, Washington University, St. Louis, MO.

## **Outreach:**

Faculty participant in Bio 375 First Generation STEM seminar. Provided an overview of my experiences as a first-generation college student for 12-16 UW undergraduates, including my perspective on mentoring undergraduates, advice for first-generation undergraduates, and answering student questions, 2021, 2022.

Faculty presenter and discussion leader for BioHouse. Provided an overview of my career in science, major scientific questions in my discipline, and discussed contemporary topics in ecology with 40 UW-Madison undergraduates, 2020

Participant in UW First Generation Connect, which holds events to allow first-generation undergraduates to meet with first-generation faculty and graduate students, 2020.

My collaborators and I have partnered with the Ruth Patrick Science Education Center at the University of South Carolina-Aiken to develop curriculum about corridors and

scientific field research that meets state education standards. This program has reached 4,271 students; 2011 – present.

My lab has actively participated in the Open House events at UW’s Trout Lake Station; these events provide a chance for members of the public to interact with researchers and learn about the latest research at Trout Lake. We have presented on a variety of topics, including mammals of the Northwoods, seed and seedling survival, methods in mammalian research; 2014 – 2017.

My lab participates in Science Day at the UW-Arboretum, providing presentations to members of the public to highlight research at the Arboretum; 2016, 2017, 2020, 2021.

Contributed a blog for the IGERT Novel Ecosystems webpage: “Trying to see the invisible: what are the consequences of behavioral changes along gradients of novelty?” <http://novelecosystems.com>; 2016

My lab has participated in Volunteer at Discovery Expo, Wisconsin Science Festival, Wisconsin Institute for Discovery, Madison, WI; 2016

Interactive presentation to 30 pre-K students at UW-Madison School of Human Ecology’s Preschool Lab to introduce them to the mammals of Wisconsin; 2015

Invited presentation entitled “Perspectives on a career in ecology” given to approximately 40 undergraduates at the UW-Madison Undergraduate Zoological Society; 2015

ALBERTI program (with Dr. Gay Lorberbaum, Washington University); scientific outreach to inner-city St. Louis youth; 2009

Judge for Elementary Science Fair; St. Louis City Schools; 2009

Kids Do Ecology Program at NCEAS; 2007

Eco-Workshops at Sedgwick Reserve; 2006, 2008

NCEAS “Ask an Ecologist” Program respondent; 2005-2006

“The Education Diversity Project: Feeding the Science Education Pipeline” sponsored by the Summer Outreach Camp, Santa Ynez Tribe of Chumash Indians; 2005

## Media Coverage

**General media coverage** (e.g., interviews regarding general topics or research projects)

Invited participant on Michael Feldman’s “Whad’ya Know” Podcast, December 2, 2017

Interviewed for NPR show “The Pulse”, discussing plant communication and the evolutionary and ecological roles of communication in general. Show aired on December 2, 2017

Interviewed for “Prairie Dogs are Serial Killers That Murder Their Competition”, published in National Geographic online (2016).  
<https://news.nationalgeographic.com/2016/03/160322-prairie-dogs-squirrels-murders-animals-killers/>

Interviewed for “Cute and Cuddly Herbivores Can Be Bloodthirsty Savages”, published in Discover Magazine online (2016). <http://blogs.discovermagazine.com/d-brief/2016/03/30/herbivores-killing-aggression-competition/>

Nutrient Network research featured in: “Open-source Ecology Takes Root Across the World”, *Science* 334:308-309.

Large-scale restoration research featured in Yale’s Environment 360: “Military bases provide unlikely refuge for South’s longleaf pine”, Nov. 2011.  
[http://e360.yale.edu/features/military\\_bases\\_provide\\_unlikely\\_refuge\\_for\\_longleaf\\_pine\\_in\\_us\\_south](http://e360.yale.edu/features/military_bases_provide_unlikely_refuge_for_longleaf_pine_in_us_south)

Interviewed for “**Imagine Earth Without People**” in New Scientist magazine (2010).

### Coverage of individual Orrock Lab research publications:

Orrock et al., *Oecologia* (2018). Research demonstrating that **plants induced defenses in response to snail mucus that led to reduced growth of caterpillars.**

Scientific American: <https://www.scientificamerican.com/article/plants-eavesdrop-on-slimy-snails/>

Orrock et al., *Nature Ecology and Evolution* (2017). Research showing that **plant induced defenses cause accelerated cannibalism among herbivores** featured by 64 news outlets. This paper is in the top 0.1% of the papers tracked by Altmetric.

Discover: <http://blogs.discovermagazine.com/d-brief/2017/07/10/cannibal-caterpillars-tomato-plants>

National Geographic: <https://news.nationalgeographic.com/2017/07/caterpillar-cannibalism-plant-defense-sp/>

Nature: <http://www.nature.com/news/plants-turn-caterpillars-into-cannibals-1.22281>

Newsweek: <http://www.newsweek.com/tomatoes-can-turn-plant-eaters-cannibals-study-shows-634380>

New York Times: <https://mobile.nytimes.com/2017/07/11/science/tomato-plants-caterpillars-cannibalism.html>

Scientific American: <https://www.scientificamerican.com/article/plants-turn-caterpillars-into-cannibals/>

Also featured on several radio programs: Canadian Public Radio (CBC), BBC radio, WORT-FM Madison

Haddad et al., *Science Advances* (2015). Research demonstrating the **pervasive effects of habitat fragmentation** featured in over 26 news outlets.

Christian Science Monitor:

<https://www.csmonitor.com/Environment/2015/0323/There-are-basically-two-big-forests-left-say-scientists>

Scientific American: <https://www.scientificamerican.com/article/world-s-forests-have-fragmented-into-tiny-patches/>

The New Yorker: <https://www.newyorker.com/tech/elements/roads-habitat-fragmentation>

Hahn and Orrock, Journal of Animal Ecology (2015). Research on how **land-use legacies affect ecological communities** featured on WORT-FM Madison radio and UW-Madison homepage.

Damschen et al., PNAS (2008). **Conservation corridors and plant dispersal** featured in multiple media outlets, including Nature News and Views: <http://www.nature.com/nature/journal/v506/n7489/full/506440a.html>

Orrock, PLOS ONE (2013). Experiment demonstrating that **herbivore cues alone can generate significant changes in plant defense** featured on UW-Madison homepage as well as in UW student newspaper (The Daily Cardinal). Also covered by several print media outlets:

Discover: <http://discovermagazine.com/2014/april/8-snail-fail>

National Geographic: <https://voices.nationalgeographic.org/2013/08/14/plants-hear-herbivores-coming-and-prepare/>

Orrock et al., American Naturalist (2011). Research **linking predators, precipitation, and disease** was featured on National Public Radio (KCLU-FM, Santa Barbara, CA). Also covered by several print media outlets:

Nature (Research Highlight): <https://www.nature.com/articles/472392a>

Described in New York Times Op-Ed piece:

<https://www.nytimes.com/2016/08/21/opinion/sunday/a-natural-cure-for-lyme-disease.html>

Allan et al., PNAS (2010). Research demonstrating how invasive plants may alter human disease risk featured on WORT-FM Madison radio. Also featured in several print outlets, such as Science Daily, Discover Magazine's blog, Albany Times Union, ST. Louis Beacon, Fox News online

Orrock and Watling, Proc. Roy. Soc. (2010). **Theoretical community ecology research on stochastic and deterministic metacommunities** featured on "EBB and Flow" Ecology and Evolution blog

Damschen et al., Science (2006). **Conservation corridor research** featured in New York Times, Santa Barbara News-Press, National Public Radio, Science Daily, National Geographic.

### **Society Memberships:**

American Society of Mammalogists (1997 — Present; lifetime member since 2008)

Ecological Society of America (1997 — Present; lifetime member since 2009)
